FRONTEND SKILLS

HTML5, CSS3, SCSS, SASS, Tailwind CSS,
JavaScript, TypeScript, React, Vite,
Responsive Design, REST API Integration

BACKEND SKILLS

Python, Django, Django REST Framework,
FastAPI, REST API Development, JWT
Authentication, HTTP, API Design

DATABASES

PostgreSQL, MongoDB, Database Design, SQL

TOOLS & DEVOPS

Git, GitHub, GitLab, Docker, Nginx, Linux,
CI/CD, npm, pnpm, Yarn, Bun, VS Code

EDUCATION

MOTION WEB IT COLEG

Information Technology
PI-2-25

LANGUAGES

Uzbek — Native
Russian — Advanced
Arabic — B2-C1
English — A2-B1
Kyrgyz — Conversational

INTERESTS

Full-Stack Development
Mobile Development
Artificial Intelligence
UI/UX Design
Software Architecture
Open Source Technologies

PROFILE

Junior Full-Stack Developer with practical experience in building modern web applications using React, JavaScript, TypeScript, Python, Django REST Framework, FastAPI, PostgreSQL, MongoDB, Docker, and REST APIs. Passionate about scalable web systems, backend architecture, modern user interfaces, and AI-powered solutions. Strong problem-solving skills, fast learner, and continuously improving through real-world projects.

PROJECT

• EduTC:

Educational platform with multilingual support, authentication system, quizzes, learning paths, and responsive design. Built to provide modern online learning experiences for students.

Tech Stack

React, JavaScript, Tailwind, CSS, REST API, GitHub

• Movie Platform:

Movie web application featuring favorites management, filtering system, responsive design, local storage integration, and admin panel functionality.

Tech Stack

React, JavaScript, SCSS, Vite, LocalStorage

• PromptOS:

AI-powered web application designed for prompt workflows, assistant interactions, semantic outputs, and intelligent user experiences.

Tech Stack

React, Python, OpenAI API, Tailwind CSS

CAREER GOAL

Seeking opportunities as a Junior Full-Stack Developer, Frontend Developer, or Python Backend Developer to contribute to real-world projects, improve engineering skills, and continue growing in Mobile Development and Artificial Intelligence.
